The Principles That Guide Utah Flood Cleanup

Since opening our doors in 1992, Utah Flood Cleanup was founded on the belief that ***the customer always comes first***. When choosing Utah Flood Cleanup, you can expect expedient and efficient service, a high level of communication throughout your project's completion, as well as fair and economical pricing. Rest assured: When you choose Utah Flood Cleanup, your property will be in good hands.

If you are in need of flood, mold or fire repair, call our experienced and professional team at Utah Flood Cleanup today! (801) 416-2666

Services We Offer

Utah Flood Cleanup will not only assist you with your flooding repair needs, but can also assist you with mold and fire damage as well. **We offer the following services:**

- ***Water Damage Repair*** – When immediate repairs have been completed, the potential for future mold growth will be nonexistent.
- ***Smoke & Fire Damage Restoration*** – If your property has suffered from a fire, keep in mind that it's what you can't see that counts. We take care of what the fire left behind and check the structural integrity of your home.
- ***Mold Removal & Remediation*** – Our licensed and certified specialists will conduct a visual inspection of your home to ensure the elimination of any mold sources and to guarantee the elimination of any potential areas of growth.
- ***Flood Damage*** – Flooding can damage floorboards as well as structural supports and potentially attract pests such as termites. Be safe, not sorry: contact us immediately after a flood has occurred.
- ***Emergency Board-Up*** – Sometimes home restoration after a major calamity takes longer than anyone expected. Utah Flood Cleanup will take the necessary steps to ensure that your home is safe to occupy when

your restoration is complete.

- **Sewage Cleanup** – This type of cleanup is not something that can wait. If left unattended, a sewage cleanup has the potential to infect your water supply as well as other elements of your property. Call us immediately and we will prioritize your safety.
- **Drain Backup & Drain Cleaning** – It's a fact: without regular drain maintenance clogs will happen. Don't let your drains, your home, your family, and most importantly, yourself, suffer. Our professional drain services will return your life back to normal in no time.
- **Disaster Cleanup** – Water, fire, or mold: No disaster is too small for Utah Flood Cleanup. With our 24/7 emergency service, our team will help you through any trauma you may be experiencing
- **Biohazard & Crime Scene Cleanup** – Presently, we handle Sewage Backups and Violent Crime Scenes/Accidents. In either event, your safety is our number one concern.
- **Air Duct Cleaning** – Over time, the air ducts in a given home have the potential to dusty, dirty, or clogged. Without regular maintenance, your home can be harder to heat and cool throughout the year. Have our professional cleaning process will have you breathing easy.
- **Dryer Vent Cleaning** – The lint trap in your dryer doesn't catch the 100% of the lint from your clothing 100% of the time. When left unattended, dryers have been known to be a source for major house fires.
- **Carpet & Upholstery Cleaning** – After a major disaster, sometimes it's easier to call in the professionals to see what can be salvaged. Some of our advanced cleaning methods include bonnet cleaning, deluxe precondition & rinse, steam cleaning, and showcase premier cleaning.
