- Our team are all fully certified disaster restoration specialists.
- The exceptional quality we deliver means lasting solutions that prevent future damage.
- You can call anytime for 24-hour emergency disaster cleanup, with a 1-hour response time.
- Our workmanship is guaranteed.
- Ask for a FREE onsite damage inspection of insurance-covered water damage.
- Utah Flood Cleanup offers financing options to fit any budget.

The Syracuse Utah Flood Cleanup team of disaster cleanup and restoration specialists will arrive with a fully-equipped emergency water cleanup vehicle, ready to manage any water cleanup and damage mitigation needs in your home or business. It is very important to call as soon as possible after you discover the flooding or the resulting damage, so we can arrive as quickly as possible to prevent as much damage as possible. The faster we can get onto the scene and start the cleanup and drying process, the greater probability that we can limit additional problems from developing.

Call (801) 416-2666 for a free phone consultation anytime, or contact us online to schedule a free onsite damage inspection of all insurance-covered water damage in your home or business.

Benefits of Professional Water Damage Restoration

Our professional water cleanup crew is highly experienced in managing even the most extreme water damage. You can be confident that our process will be performed smoothly and efficiently. We begin cleanup work upon arrival, and we evaluate the extent of damage to your property and quickly start processes for mitigation of further damage throughout the affected areas of your home.

Our team can begin flood water cleanup work immediately upon arrival. We evaluate the extent of damage to your property, and we quickly start mitigation processes, to prevent further damage throughout the affected areas of your home or business.

We perform a thorough evaluation of all property damage from the incident and meticulously make sure that everything that should be included is included in your property damage insurance claim. We work together with you to complete the steps you need to take with your property insurance company, to enable complete restoration of all damages in all affected areas.

We work directly for you, not your insurance company. That means we are your advocate in working with the insurance company to make sure that everything that should be done is done in communicating with the insurance carrier so that all insured damage repairs are appropriately covered.

Problems You Can Avoid By Timely Restoration

There are many common causes of water damage on residential and commercial properties, such as weather disasters, plumbing pipe breaks, overflowing appliances, and back flowing irrigation lines, among others. When the disaster originates inside the building, the water must be shut off immediately, to stop it from continuing to leak. A toilet overflow that is flooding waste water in your home requires professional sewage cleanup services and water damage repair.

- **Minimize Replacement Costs:** By your quick action to call in our disaster cleanup and restoration services team, you can keep your replacement costs to a minimum for furniture, decor, and other items to restore your property. We do what is necessary to give your furniture the best possible chance of recovery, and we remove any remaining water from the incident. The sooner we get to your property and get started, the sooner you will be able to move back into your property and get your life back to normal.
- **Minimize Mold Hazard:** A major problem that you can expect to confront along with water damage is the risk of mold growth. Mold can be an extreme health hazard to you and all occupants of your home. Minimizing risk of mold development is another important reason to call us as soon as a water damage event occurs.

Utah Flood Cleanup provides you with our industry's best quality water damage solutions for your home or business at an affordable price. Ask about our financing options to fit your budget.
